INSTRUCTIONS FOR USE FACE PROTECTION SHIELD

1. Remove the second sticker from the support ribbon.
2. Stick the right corner of the shield on the sticker.
3. Stick the second corner creating a gap between the ribbon and the shield.
4. Place the support ribbon on the front by adjusting it accordingly.
5. Finally, apply the ribbon on the head, sticking the third sticker.

The product was manufactured to control the non-spread of COVID-19 as well as to protect people who work or are active in areas where there is a risk of transmitting the virus. The use of a protective shield does not guarantee complete protection of the individual and is ancillary as there are branches that require further protection and equipment.
